**the vibe:** cycling, nature, local kitsch  
 everglades city is a wild-west cowboy town in the swamp -- renegade,  
 independent, adventurous – with great seafood and stories to tell.

lots of other stuff to do (on your own) before/after the bicycle ride  
 kayak, boardwalks, fishing, hiking, airboats, museums, boat tour.  
 meet-up saturday night for seafood at **Camellia St Grill** & campfire.

**the smooth ride:** not a single hill, but a great stretch of pavement in the  
 wilds of the everglades, with few stop signs and no chasing dogs.

**16, 23, 50, 62, 82 miles**  
 see website for route details

**the bumpy ride:** half of route is on dirt road in boondocks of fakahatchee  
 swamp, with local guide. skinny tires NOT recommended.

**27 miles**, with modifications possible  
 see website for route details
